## B. Traduisez le texte!

My mum works in a secondary school as a teacher. She loves her work because she likes to work with children. The disadvantage is that she has to do lots of hours. My dad has been unemployed for six months. I have a part-time job in a leisure centre. I work 3 days a week, four hours a day. I find the work boring but it's fairly well paid. In the future I would like to work as a dentist in order to earn lots of money.
